

Product sheet
WF54 with Munters Drive

- Reduce Energy Costs Up To 40%
- Nearly Maintenance Free
- Direct Drive Power, no drive loss
- Qualifies For Most Regional Energy Rebates
- Lower wiring costs
- Optional modes. HE, HR, HO and variable speed, providing increased ventilation and savings
- Patent Pending

WF54 with Munters Drive

Munters Drive Motor Technology is now available in a more economical WF54 Galvanized Fan. Add the Munters Drive WF54 to your building ventilation for significant Energy Savings and low maintenance cost. Run the Munters Drive in Variable Speed mode, for a perfect minimum ventilation solution. The Munters Drive is like no other large diameter fan in the Agricultural industry. The use of a DC motor allows for a direct drive fan to be programmed at a specific RPM and hold that RPM without the normal drive loss. Direct drive also means no belts, tensioner or bearing maintenance. Munters Drive is the future of Agricultural Ventilation.

Performance Information: 54" WF, Three Phase - 460 Volt Motor and Drive
